FUTURE FOR EDUCATION

NEWSLETTER

WHY

Future for Education, funded by Erasmus+, is a concrete answer for distance education During COVID-19 pandemic personal presence of students in schools and universities has been banned Schools and universities have to swich to distance online education: new way of education for students and also for teachers.

The COVID crisis emphasized the increased need for all to exploit the potential of digital technologies for teaching and learning and develop digital skills.

WHAT

The objectives

- contribute to improving the quality of education and training
- develop and strengthen the digital
- competencies of students and teachers
 - improve levels of skills for employability and new business creation

Our project focuses on activities that will strengthen teachers' ability to work with a variety of digital learning resources, planning and implementing the use of digital technologies at different stages of the learning process.

With a dash of creativity and ingenuity, you can achieve anything.

HOW

The results

 Methodology of examples of good practice and recommendations:

Teachers and and students will find examples of good practice from our partner countries and recommendations of the latest digital technologies. This international sharing will bring new knowledge and comparisons

Study texts and seminars

Study materials will improve the skills and knowledge of the students and their teachers in digital education Individual study materials will be realized for 3 areas:

- 1. Effective online teaching in schools
- 2. Digital marketing in business
- 3. Electronic communication in the corporate environment

6 seminars and the corrispondent 6 study texts (2 for each area) will be realized in each partners' country for a total of 18 study texts and 18 seminars for the whole partnership

Activities

- We have prepared a questionnaire to receive feedback from students and teachers on their distance learning experience and acquire any suggestions on the knowledge and skills necessary to make distance learning as effective as possible.
- The questionnaire will be submitted by each partner to at least 30 students and 15 teachers of middle /high schools and university in January and February 2023.

Meetings

- The last April the kick-off meeting was held in Czech Republic.
- At the end of March 2023 the second transnational meeting will be held in Poland.

Happiness is knowing and wondering»
