Czech Chamber of Commerce Přerov

Medoro, Italy

Beskidzka Izba Gospodarcza, Poland

Co-funded by the
Erasmus+ Programme
of the European Union

Project presentation in events dedicated to FUTURE FOR EDUCATION project (national seminars, workshops, meetings, conferences etc. please specify the type of event)

Indicate for each event: date, place, title of event, nr. of participants, type of participants (please fill in also the table on page 10. Duplicate if necessary)

period 01.02.-31.08.2023:

ALL PARTNERS

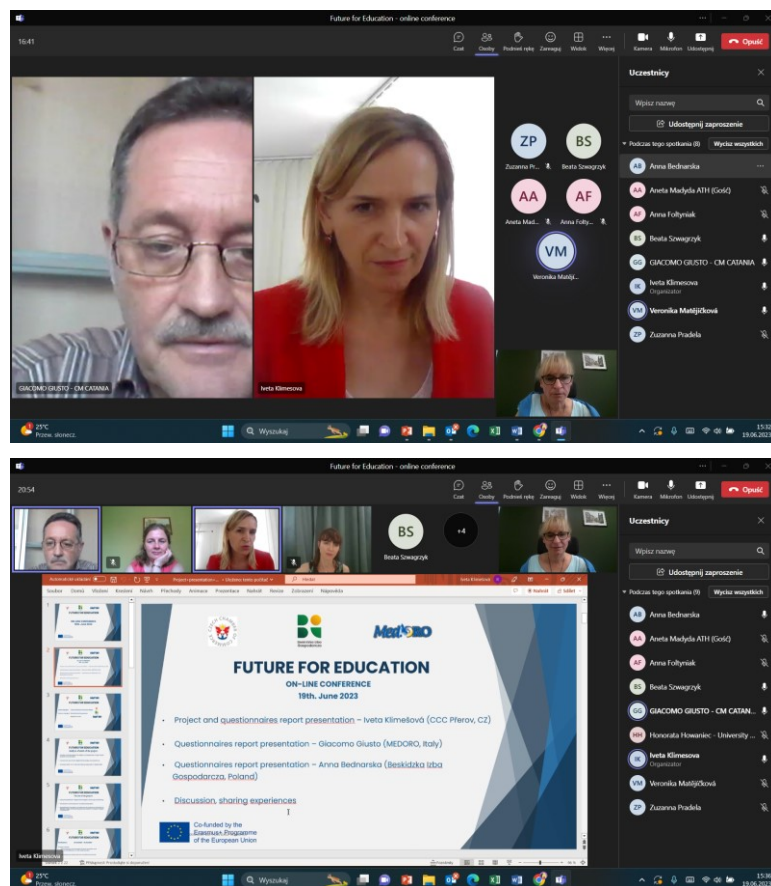

Date: June 19, 2023

Place: International online conference for teachers (MS Teams)

Number of participants: Polish teachers: 8, Czech teachers: 1, Italian teachers: 1 and 3 partners members

Subject: Identification of good practices and recommendations in the field of education based on the experience gained during remote teaching, which took place in connection with the SARS-CoV-2 pandemic.

The aim of the meeting was to present the methodology developed as part of the "Future For Education" project for students and lecturers in the field of effective distance learning methods and to talk to teachers from different countries about their observations regarding the challenges of online teaching. The meeting took place online, on the MS Teams platform, and was attended by teachers and lecturers from Italy, the Czech Republic and Poland, as well as representatives of the Chambers of Commerce from these three countries.

P1: Czech Chamber of Commerce Přerov

No national event

P2 – Medoro (Italy) :

No national event

P3 – Beskidzka Izba Gospodarcza (Poland) :

Date: June 7, 2023

Place: Complex of Automotive and General Education Schools, Bielsko-Biała

Number of participants: 100 students/pupils

Subject: Presentation of project Future for Education

June 7, 2023 the conference presenting the ongoing project "Future For Education" was held at the Automotive and General Education School Complex in Bielsko-Biała. The results of effective and innovative remote teaching methods developed as a result of the prepared methodology were presented and discussed. Anna Bednarska - Director of the Chamber's Office presented the research results. The aim of the research activities undertaken as part of the implementation of the project is to make teaching more attractive by introducing more effective and innovative online teaching methods. The developed methodology will be a model tool for introducing hybrid education in vocational schools in all partner countries.

The research area on the basis of which the methodology was developed covered the southern region of the Silesian Voivodeship. The study was in the form of a questionnaire survey and was conducted using the CAWI (Computer-assisted web interviews) technique. The survey was prepared in Polish for two groups of respondents. The first were high school and university students who were included in remote teaching during the pandemic. The second group consisted of teachers and academic lecturers who, in the conditions of the pandemic, were forced to remotely prepare and conduct classes. Online surveys were available on the Google website, and information about the study was sent by e-mail, via social media and the Ms Teams platform, with a geographic restriction to the surveyed region. In addition, information about the study was sent to a group of teachers via the Department of Education and Sport of the Municipal Office in Bielsko-Biała. The research process lasted from December 2022 to the end of February 2023. 495 students and 67 teachers and academic lecturers took part in the study.

Both students and teachers attended the conference. In addition, during individual consultations with students and teachers, the most important conclusions and technical solutions aimed at improving the effectiveness of remote teaching and methods of effective online communication between teachers and students were provided.

Date: March 30, 2023

Place: Office of the Beskid Chamber of Commerce in Bielsko-Biała

Number of participants: 5 representatives of partners from the Czech Republic, Italy and Poland

Subject: Working meeting of the Project partners entitled FUTURE FOR EDUCATION.

The meeting was aimed at summarizing the first stage of cooperation related to conducting a survey among pupils/students and teachers/lecturers regarding on-line teaching, with particular emphasis on the tools used.

Project Presentation within others events: workshops, meetings, conferences, training courses etc. (please specify the type of event)

Indicate for each event: date, place, title of event, nr. of participants, type of participants (please fill in also the table on page 24 of the document attached)

period 01.02.-31.08.2023:

P1 – Czech Chamber of Commerce Přerov :
